Website Payment Preferences

[Back to Profile Summary](#)

Auto Return for Website Payments

Auto Return for Website Payments brings your buyers back to your website immediately after payment completion. Auto Return applies to PayPal Website Payments, including Buy Now, Donations, Subscriptions and Shopping Cart. [Learn More](#)

Auto Return: ☒ On
☐ Off

Return URL: Enter the URL that will be used to redirect your customers upon payment completion. This URL must meet the guidelines detailed below. [Learn More](#)

Return URL: <http://www.sri-connect.com/sandbox/>

Return URL Requirements: The following items are required in order to set up Auto Return.

In accordance with the User Agreement, you must provide written information on the page displayed by the Return URL that will help the buyer understand that the payment has been made and that the transaction has been completed.

You must provide written information on the page displayed by the Return URL that explains that payment transaction details will be emailed to the buyer.

Example: Thank you for your payment. Your transaction has been completed, and a receipt for your purchase has been emailed to you. You may log into your account at www.sandbox.paypal.com/uk to view details of this transaction.

Payment Data Transfer (optional)

Payment Data Transfer allows you to receive notification of successful payments as they are made. The use of Payment Data Transfer depends on your [system configuration](#) and your Return URL. Please note that to use Payment Data Transfer, you **must** turn on Auto Return.

Payment Data Transfer: ☒ On
☐ Off

Identity Token: kYp7C8ix9Xv6Jxe9bNCKvC-yMfZqeDlfzWyDxd9z9j5HN7ibQTJDwcGDIBa

Encrypted Website Payments

Using encryption enhances the security of website payments by decreasing the possibility that a third party could manipulate the data in your button code. If you plan on only using encrypted buttons you can block payments from non-encrypted ones.

[Learn more about Encrypted Website Payments](#)

Note: If you enable Encrypted Website Payments, all of your Buy Now, Donations, and Subscriptions buttons **must** be encrypted via one of the following methods:

Using the [Button Factory](#) with the security settings enabled.

Using your own code, you encrypt all website payments before sending them to PayPal.

By enabling this feature, any Buy Now, Donation, or Subscription button that is not encrypted will be rejected by PayPal.

**Block Non-encrypted
Website Payment:** ☐ On
☒ Off

PayPal Account Optional

When this feature is turned on, your customers will go through an optimized checkout experience. This feature is available for Buy Now, Donations and Shopping Cart buttons, but not for Subscription buttons. [Learn More](#)

PayPal Account Optional: ☒ On
☐ Off

Contact Telephone Number

When you activate this option, your customers will be asked to include a Contact Telephone Number with their payment information. [Learn More](#)

Note: Selecting **On (Required Field)** could have a negative effect on buyer conversion.

Contact Telephone ☐ On (Optional Field)
☐ On (Required Field)
☒ Off (PayPal recommends this option)

PayPal Express Checkout Settings

With this setting you determine if you technically support the German funding methods giropay and bank transfer in your PayPal Express Checkout implementation.

**Support giropay and bank
transfer payments:** ☐ Yes
☒ No
